

Island Ad-Vantages

THE VIEW FROM ATLANTIC AVENUE

December 23, 2021: NOTE - The Oceanography group at UMaine is aware of the malfunction of the sea surface temperature sensor on the oceanographic buoy and they will fix it as soon as they can.

Behind every good nonprofit organization is a volunteer Board of Directors. MCCF is blessed to have a great Board with 15 members. This group of people have strong connections to this area and they care deeply about the fishing communities of eastern Maine. They serve on committees, provide guidance to our staff, and help cultivate interest and support from community members. At our recent annual meeting, we said farewell to four long-standing members.

Jim Chesney served for two years as Board chair, Susan Toder has been our Development Committee chair for almost five years, Tom Urmey has been Board secretary for several years, and local fisherman Brent Oliver has been an active Board member for nine years. It has been a pleasure working with these great people who have contributed to the success of MCCF in so many ways. The MCCF staff wishes to extend our gratitude to Jim, Susan, Tom and Brent along with all of the members of our Board for the dedication to our cause and providing their work, wisdom and wealth.

Nonprofit organizations serve such vital roles in our communities and we extend our appreciation and congratulations to all of them that are supporting the people and places that we cherish. Thanks to the commitment of the people who do the work in nonprofits and to all of the volunteers that serve on the many Boards of Directors. You can learn more about the MCCF Board of Directors at our website: www.coastalfisheries.org.

Do you have a question about our fisheries? Send it to info@coastalfisheries.org or call 207.367.2708. Learn more about MCCF by visiting us online at www.coastalfisheries.org
